*Examination Regulations:

1 Hygiene

- Tidy all ingredients for eyelash extensions onto trays & baskets.

23D to 9D treatments within 13mm

– Multiple eyelash hairs are used to treat eyelash thickening suitable for the model.

3 Shape Design

Check the fan shape of the — base design.

Check the balance and harmony of both sides of the —.

4 Technology (= Expertise, Year)

— Check the use of both tweezers on both hands.

(Check if the use of a pair of tweezers is a distinguishing role or a holding role.)

- Make sure that the hair is treated without touching the skin and maintaining a certain distance.

How to use — adhesive (glue amount)

— Make sure that it is clean as a whole.

<Procedure Criteria> - Use 3D (three) or more with a thickness of 0.07mm or less for eyelashes, and do not use disposable eyelashes that are not intended for extension. (In this case, you will be disqualified.) It is possible to make and design by hand - Using at least three types of sizes, perform procedures on both eyes to make them symmetrical to the left and right.

- Make sure that the model's eyes and extended eyelashes match well.
